“Double Figure 8 Races”

JM Motorsport Productions developed this form of action racing by using compact cars to enhance excitement for both drivers and spectators. Utilizing smaller, lightweight cars takes on all the excitement of a full-sized Figure 8”. Unlike the traditional brute-force demo, in this event it is your ability to out-think and out-maneuver the other driver that makes you the Winner!

All new entrants are welcome to compete in this event, providing you agree to compete under all rules and regulations. Your repeat invitation and acceptance in these events are based on previous CAR APPEARANCE and PERFORMANCE. All repeat entrants must be invited to enter and compete based on previous COMPLIANCE and understanding of the official rules and regulations.

Program of Events

Events

#1/#8 Qualifying In each of these events, the “Winner” (first car to cross the finish line after a pre-determined number of laps), will receive $1000, a Trophy, and will qualify to run in the Feature Championship Event.

Event #10 Full Size Pickup Truck/SUV Demolition Derby Championship: See attached rules. The “Winner”, last vehicle running to make contact, will receive a Trophy and $1000.

Event #11 Compact Demolition Derby Championship: Open to all drivers and their Figure 8 cars that competed in the above events. The “Winner” (last car running) will receive the Championship Trophy and $500. Second place driver will receive a Trophy and $200.

JVMOTORSPORT PRODUCTIONS STOCK DEMOLITION DERBY RULERS WILL APPLY. HOWEVER, IF YOU WANT TO MAKE CHANGES THE FOLLOWING EXCEPTIONS/CHANGES WILL BE PERMITTED. Rule Questions - (716) 543-8201.

You will be permitted to change the location of the fuel tank and battery, providing you accomplish this in a manner approved by a Motor Sport Race Sanctioning Body’s Rules. The fuel tank recommendation by JM Motorsport Productions is a stock gas tank in stock position, NASCAR approved fuel cell, or a U.S. Coast Guard Marine fuel tank, installed behind a firewall.

Drivers may use an “approved inside gas tank”. No gas cans.

If you choose to use an inside gas tank:

- A marine-type gas tank is highly recommended. A plastic marine tank will be permitted providing it is installed in a solid steel box; only the top may remain open, for inspection.

- No external electric fuel pumps or inline filters are permitted inside the driver’s compartment! All electric fuel pumps must shut off with ignition/toggle switch painted yellow within reach of the driver.

- No rubber hold-down’s permitted.

- Only 3 gallons of gas will be permitted.

- Gas tank must be securely fastened and covered in the trunk area over the rear end housing or in the center area vacated by the rear seat. Tank must be reinforced, providing not reinforcing any other part of the car. In other words build a cage that does not mount to the frame, sides or rear of the vehicle. Bracing is permitted 2 feet back from the driver’s seat.
